

mk SelfCheck SC4

Provide the power of self-check

SC4 Black – Landscape 22”

SC4 Black – Portrait 22”

SC4 White – Landscape 24”

Description:

The SC4 is an adaptable SelfCheck unit, which includes a built-in printer, barcode scanner, RFID card reader and RFID item reader. The SC4 is able to print or e-mail receipts for check-in/-out, account details, renewals and fine/fee payments. Includes a Touch-PC with IP65 surface protection against dust and water, making it extremely durable. The SC4 is a compound module, which can be a freestanding kiosk, a table top model or be built onto/into the library's counters. The library can easily convert the unit by adding or removing the stand.

Technical Details:

- **Build-in:**
